DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 5, 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Takefman (US 4,569,086). Takefman discloses a combined container and garment protection device including a support section (3) having an open portion adapted about the neck and a container section (5) including a pocket to receive food items therein, col. 3, lines 6-46 and as shown in figures 1-3. Further, the support section is releasably engageable with the container section to form a handle to facilitate transport of the device as shown in figure 2.

Allowable Subject Matter

3. Claims 2-4, 6-7 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
